

Marine Aquarium Societies of Australia Inc Purpose

The purpose of the Marine Aquarium Societies of Australia Incorporated is to be;

- an organisation representing the marine aquarium societies and interested marine hobbyists across Australia,

- an organisation who's purpose is to draw the hobby together throughout Australia by improving communication between marine aquarium societies. MASA is not a society on its own, and does not exist to replace or override the local societies,

- a way to present a combined voice for the marine aquarium societies and hobbyists of Australia,

- a single point of call for legislators, governments, commercial interests, lobby groups, etc. who want to reach hobbyists in Australia.

- a forum for Australian MASs to share information and resources, thereby eliminating/reducing duplication to the mutual benefit of all concerned.

The purpose of MASA is further defined in the MASA Mission.

MASA is not a society on its own and does not exist to replace or override the local societies.
